Life changing.

## Introduction

The Northern Oklahoma College Fact Book is a collection of institutional data put together to provide information to those who make decisions, write grants, need institutional data for accreditation purposes, and to the general public interested in the institution. The Fact Book is intended to be a snapshot of the collective institution, including data from all three of Northern's locations with data and information updated in July of the year reported. The Fact Book, now in its third year, is an annual publication that is intended to grow into a longitudinal study of the institution which gives the reader a history of Northern in previous years.

New to the publication this year was the addition of the Athlete Study along with Business Division Study and Library Statistic. Along with the addition of these studies, an Institutional Dictionary was included for reader unfamiliar with terms in higher education to find a source to explain those terms used in the Fact Book. Finally, the addition of Year-End Highlights was added to give the reader a fuller understanding of the activities and achievements of Northern.

The data presented in the Fact Book was obtained either from certified data sources, such as IPEDs, or from campus databases. All years, unless otherwise indicated, follow the IPED reporting schedule of summer, fall, and spring for that academic year. Thus any year containing data for Yr – 2014 includes summer and fall of 2014 and spring of 2015. If the data is collected from a source other than those previously indicated, the source will be reported with the data. Realizing there may be gaps in information, it is requested that Fact Book readers provide feedback so that the future publications may include that information. If any questions arise, please contact the Office of Institutional Research.

# **About NOC**

# **History of NOC**

Through the efforts of the Honorable James H. Wilkin, on March 1, 1901, the Oklahoma Territorial Legislature passed an act appropriating money to establish University Preparatory School at Tonkawa. Wilkin also obtained an endowment of land for the school. Consequently, Central Hall was constructed, a faculty employed, and other essentials of an educational institution provided. In September 1902, the doors of the new school swung open to prospective students. Two hundred and twenty-seven young men and women enrolled; thus opened the colorful history of one of Oklahoma's most important and picturesque educational institutions.

As the curriculum expanded and the enrollment increased, new equipment and other facilities became necessary. An act of Congress dated June 2, 1906, provided for the donation to the school of a section of land adjoining the city of Tonkawa. Proceeds from the sale of this land were to be used to provide additional buildings. A similar act of 1909 granted another tract of land for the same purpose. Harold Hall and Foster-Piper Fieldhouse were erected and paid for with the funds secured from the sale of these lands.

The college department was established in 1921, and the institution became a fully-accredited junior college. By an act of legislature in 1941, the name was changed to Northern Oklahoma Junior College. Further changes were made by the state legislature in 1965 with the passage of the Higher Education Code. This new statement of law changed the institution's official name to Northern Oklahoma College. Its three-man Board of Regents was expanded to five and given added authority and freedom in conducting institutional affairs.

In June 1999, Northern purchased the grounds and buildings of the Phillips University campus in Enid. Phillips University, a private institution established in 1907 by the Disciples of Christ, had closed its doors in August 1998. The purchase of the campus allowed Northern to expand its services to its Enid students and to provide for growth of its academic, student and community programs.

In 2001, Northern Oklahoma College celebrated the centennial anniversary of its founding, and, with the beginning of the fall 2002 semester, entered its second hundred years of providing quality education to students. The history of the institution is unique in the annals of higher education.

In August 2003, Northern joined in a partnership with Oklahoma State University to expand educational opportunities for college bound students in Oklahoma. The partnership allowed Northern to expand its services to its Stillwater students.

#### **Tonkawa**

The Tonkawa campus, established in 1901, serves as the administrative center for Northern. All program oversight in academic, financial, student service, personnel, development, physical plant, and information technology is housed in Tonkawa. Some 2,200 students attend class on site, by ITV, or via online. Offering over 20 distinct degree paths with over 40 degree options and an array of courses, Northern distinguishes itself as a leading community college in Oklahoma.

#### **Enid**

The Enid site was established in 1999 in conjunction with the Oklahoma State Regents for Higher Education (OSRHE) and the City of Enid. This site has grown in offering multiple two-year liberal arts degree programs to some 1,200 students each semester. The Enid site continues to expand its faculty, curriculum, and numerous clubs and activities.

#### Stillwater

The Stillwater site, established in 2003, serves multiple missions to area students. Primarily a Gateway Program, the Stillwater site serves students who would otherwise not be admitted to Oklahoma State University. The site, however, also admits students seeking general education courses that transfer to other comprehensive colleges and universities. Northern Stillwater admits approximately 300 new students each fall and spring semester, serving some 1,700 students.

#### The Aspen Institute - 2014

The Washington-based Aspen Institute announced that Northern Oklahoma College (NOC) has been selected as one of the top 150 community colleges in the nation and the only one in Oklahoma. Northern was included in the top 120 in the two previous Aspen recognition of excellence programs in 2011 and 2013.

In the letter informing NOC President Dr. Cheryl Evans that NOC made the top 150 list, Josh Wyner, executive director of the Aspen Institute College Excellence Program, wrote, "Congratulations on being selected as one of 150 community colleges nationwide determined eligible to apply for the third \$1 million Aspen Prize for Community College Excellence.

"The Prize, awarded every two years, has brought a new level of public attention to community colleges, established new measures of excellence in outcomes for community college students, and uncovered practices that Aspen is disseminating to help community colleges improve outcomes for their students."

In round one of the Aspen program competition process, the top 150 community colleges, out of 1,005 potential candidates selected by an expert panel, are identified through an assessment of institutional performance, improvement, and equity on student retention and completion measures.

When Warner announced the top 150, he said, "Community colleges have tremendous power to change lives, and their success will increasingly define our nation's economic strength and the potential for social mobility for every American. This competition is designed to spotlight the excellent work being done in the most effective community colleges, those that best help students obtain meaningful, high-quality education and training for competitive-wage jobs after college. We hope it will raise the bar and provide a roadmap for community colleges nationwide."

President Cheryl Evans said, "I am very proud that Northern has once again been selected as one of the top community colleges in the nation by Aspen and I believe that this is external validation of the dedication of our faculty and staff members who work every day to create life-changing learning experiences for NOC students. It also shows that our students are working hard to achieve their educational goals. I'm especially excited that the criteria evaluated is similar to Oklahoma's Complete College America goals, NOC's Higher Learning Quality Initiative and Northern's strategic plan goals. This recognition tells us that our planning efforts are on the right track."

## **SmartAssets**

SmartAssets looked at close to seven hundred public community colleges across the country in order to find the best of the best, and Northern Oklahoma College came in at #2! The college ranked high in the list according to the following factors: the cost to attend the college, the ratio of starting salary to the cost of education, the percentage of students who enroll at the community college, graduate and then go on to transfer to a four-year institution. The chart below posted in the 2014 article from SmartAssets website shows Northern Oklahoma College's rank compared to the other top ten community colleges.

According to SmartAssets 2014 publication, "Northern Oklahoma graduates have an even better rate of starting earnings to college costs than Coastline graduates do, at 187 percent. This school, which is between Wichita and Oklahoma City, also has about a ten percent greater graduation and transfer rate than the national average."

## **President of NOC**

Our outstanding institution creates opportunities which shape and transform the lives of its nearly 5,000 students. NOC's influence has not gone unnoticed; for three consecutive times the non-profit Aspen institute in Washington, DC has ranked Northern in the top ten percent of community colleges nationally. In 2014, NOC distinguished itself for a second time as the only Oklahoma institution ranked with this honor.

Northern offers access to an affordable, quality education. Our committed faculty and staff members accommodate individual student

needs with a personal touch. Teachers advise individuals to achieve their specific career goals. NOC fosters a warm academic environment described by students as an inviting family atmosphere.

The talent, dedication and passion of our students, faculty, and staff instill our locations in Tonkawa, Enid and Stillwater with distinct character. NOC offers the place, price, and programming to fit a broad array of life situations. We effectively serve many different types of individuals. Our diverse student body is comprised of young people fresh from high school, as well as those who stepped out of college and feel ready to return to the classroom. We also embrace adults making the brave decision to enter college for the first time—improving life for both themselves and their families.

Our campuses share a common trait: persistence in academic pursuit in a nurturing environment. I take pride in watching all that NOC alumni accomplish as they transition from learners to earners and leaders. Our alumni enter the workforce equipped to immediately impact and help grow our state's economy. The majority of our graduates either go on to complete additional degrees or go right to work in successful careers.

NOC boasts a tradition of excellence made possible by our many partners who know higher education changes lives. I invite you to visit our campuses and become a part of our friendly learning community.

Sincerely,

Cheryl Evans

# **High-Impact Strategies**

- NOC has continued to work with Enid Public Schools in a partnership to expand collegelevel course offerings taken by juniors and seniors at the EPS, a new \$6.5 million, 16classroom, four-laboratory building, designed to house AP courses and concurrent enrollment.
- Week-long Remedial Boot Camps have been developed in composition and math to allow students a period of intensive review the week prior to the fall semester and an opportunity to fast track into a college credit-bearing course.
- The Office of Enrollment Management has worked with peers at the University of Central Oklahoma, Northwestern Oklahoma State University, and Oklahoma State University to identify strategies for reverse transfer. Through a pilot program with UCO, this discussion led to attorneys drafting new language at the federal level rewriting FERPA guidelines. This helped to expedite the process and raise the number of graduates in Oklahoma and to serve as a national model for reverse transfer. Last year, over 1500 students between UCO, OSU, and OU were targeted in the reverse transfer initiative. Of those 1500, 314 students already had degrees, which were verified after transcripts were shared. An additional 755 degrees have been awarded as of May 2015 with additional summer transcripts to be reviewed.
- In addition to regular participation in the state transfer matrix meetings, maintaining strong articulation agreements with partner transfer institutions continues to benefit students through curriculum alignment for ease of transfer.
